PROFILE

My name is Muhammad Awais Mazher and I am a fresh Computer Science graduate. I have a keen interest in designing and building web applications. I started learning web development after intermediate and since then I have learnt a lot of technologies including: HTML, CSS, JavaScript, Tailwind and the entire MERN Stack. I have 1 year of hands-on experience in building full-stack applications using this stack.

PROJECTS

Personal Portfolio Website

2025 – 2026

React.js | awais-mazher-portfolio.vercel.app

- Developed a personal portfolio website to establish an online presence and showcase development projects.
- Built a fully responsive, single-page design using React.js to ensure a smooth experience across different devices.

Code Emerge — Code Evaluation & Execution Platform

2025 – 2026

MERN Stack · REST APIs · JWT Authentication | code-emerge-fe.vercel.app

- Built a code evaluation platform for college students to practice logic-building and problem-solving through an in-browser code editor and automated execution engine.
- Implemented secure JWT-based authentication and REST APIs to handle user authentication, submissions, and results.
- Designed a responsive React interface deployed on Vercel, supporting concurrent code submissions with real-time AI assistance using Groq API.

AI Background Removal Web App

2025 – 2026

MERN Stack · Third-Party Image Processing API | ai-background-removal-web-app.vercel.app

- Developed a full-stack tool that removes image backgrounds via a third-party AI API, cutting manual editing time for users to a single click.
- Built an interface with instant preview and download, improving usability for non-technical users.
- Handled image upload, processing status, and error states end-to-end across the MERN stack.

EXPERIENCE

- Built and deployed three full-stack applications using the MERN Stack, covering authentication, REST API design and databased-driven backends.
- Designed responsive React.js interfaces and connected them to custom REST APIs for real-time data operations.
- Structured MongoDB schemas and implemented server-side logic using Express.js and Node.js, including secure JWT-based authentication.

SKILLS

Languages & Frameworks: JavaScript (ES6), React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS

Databases: MongoDB, MySQL

Tools & Practices: Git & GitHub, Postman, REST API Design, JWT Authentication, Vercel Deployment

Soft Skills: Communication, Teamwork, Problem Solving, Analytical Thinking, Adaptability, Attention to Detail

EDUCATION

Government College University Faisalabad — BS Computer Science

2022 – 2026

CGPA: 3.59 | Faisalabad, Pakistan
